

pivot\_selector\_maxoszlop  
/pivot\_selector\_plugin  
\_interface.h

```
graph TD; A["pivot_selector_maxoszlop<br>/pivot_selector_plugin<br>_interface.h"] --> B["QString"]; A --> C["QWidget"]; A --> D["QStandardItemModel"];
```

The diagram illustrates a C++ header file, `pivot_selector_maxoszlop/pivot_selector_plugin_interface.h`, which includes three Qt classes. Three blue arrows point from the header file box to the class boxes: `QString`, `QWidget`, and `QStandardItemModel`.

QString

QWidget

QStandardItemModel
